

Bespoke Individual & Group Support (BIG)

The Bespoke Individual & Group Service believes that everyone has the right to access activities and events in the community on their own terms. Our tailored service encourages community participation, access to leisure provision and social activities where and when individuals choose.

The BIG Service can be undertaken as part of a group service or alternatively on a one to one basis. A plan is completed with individuals to agree what support is required and the type of activities to be undertaken. The service can be as flexible or as routine as required but the availability of

the Support Worker must be considered.

The BIG Service provides specialist services and highly trained staff with excellent communication skills, in depth understanding and experience of working with people with disabilities.

BIG participants can enjoy activities such as:

- support to get involved in the local community
- support to meet new people
- support to participate in different social activities
- support with hobbies and recreation
